Southern Eagle Tours receives service recognition

Southern Eagle Tours received the "Agent of the Month" award in November 2008 for the company's Mauritius tour packages.

The interest in the company's Mauritius itineraries has increased steadily each month since the launch of the Mauritius department in August 2008. Southern Eagle Tours' management says that it is the value added extras and Southern Eagle Tours' high level of client service that have contributed towards receiving the award.

Southern Eagle Tours, who recently attained Sun International Dreams' top supplier of the year award, was established in 1996. The team at Southern Eagle Tours provides its clients with appropriate travel advice and personal attention at all times.
